Education

University of Maryland, College Park (UMD) — College Park, MD

Bachelor of Science, Computer Science (in progress)

Expected Graduation: December 2026 | GPA: 3.3 (major coursework) / 2.8 cumulative

- Relevant Coursework: Data Structures & Algorithms, Applied Probability & Statistics

Community College of the Air Force / U.S. Air Force Technical Training

- Coursework in Cyber Surety, Computer Networking, Radio Equipment Theory, and Leadership/Management.

Academic Awards & Honors

- President's Transfer Scholarship

Academic Interests & Research

- Quantum Computing and Quantum Information Processing
- Cloud Computing and Distributed Systems
- Computer Graphics and Simulation
- Cybersecurity and Network Defense

Professional Experience

WideEye Surveillance — System Administrator

May 2022 – Dec 2023

- Automated AWS EC2 instances with Node.js scripts, reduced costs by \$2,000+/month.
- Configured 200+ client devices with optimized network rules, generated \$5,000+ monthly revenue.
- Migrated server snapshots to cold storage via AWS CLI, cut annual expenses by \$36,000.
- Independently managed projects, improved operational efficiency.

U.S. Air Force — Cyber Operations Technician

July 2015 – July 2021

- Engineered three secure WANs in remote environments via OSPF routing for 300+ users.
- Deployed four classified networks, serving 1,000+ users worldwide.
- Optimized IP networks for 500+ devices, increased performance for 100+ users.

- Conducted cybersecurity audits ensured DoD compliance, safeguarded \$5M+ in assets.
- Trained and collaborated in high-stakes, mission-critical environments.

Projects & Independent Learning

- AWS Lambda EC2 Scaling Tool: Developed a serverless automation system to optimize resource usage.
- Networking Homelab: Maintained virtual labs with Cisco Packet Tracer and AWS VPCs for continuous skill-development.
- Spring Boot REST API: Designed and tested a web service for employee management, to include JSON data handling and unit tests.

Skills & Certifications

Programming Languages: Python, JavaScript (Node.js, React), Java (Spring Boot), SQL

Cloud & DevOps: AWS (EC2, S3, IAM, Lambda), Cloud Automation

Networking & Security: OSPF, VLANs, VPNs, Firewall Configurations, Cybersecurity Protocols

Certifications: CompTIA Security+; AWS Certified Cloud Practitioner (expected Dec 2025)

Forage Virtual Work Experiences

- Hewlett Packard Enterprise — Software Engineering (Mar 2025)
